

SAVE \$100s: All the tools needed for Today's Professionals

SSL Certificate INCLUDED

COOLCOM charges \$49.95/y but you **could be saving 100s** when compared to GoDaddy, Webnames; so many hosting ISPs.

JET Backups INCLUDED

At your fingertips is access to full or incremental backups and if you need help or pointers, **we can do that for you!**

DNS 1Pak INCLUDED

Host up to 1 more URL to point or build more. Successful sites are supported by **type-in Domains & lead pages.**

Tier II Tech INCLUDED

Your tickets go directly to **Tier II Techs**, bypassing triage and moving right to the techs to work out for you quickly.

Domain Guard INCLUDED

Add a PIN to your domain listing that only you know. Ensure any changes to your records are initiated and approved by you.

BONUS

Domain Guard & Theft Protection.

~~\$19.95~~

- ✓ PIN Security
- ✓ 2Factor Protection

INCLUDED: Highly advanced email systems that we help you set up

COOL Corporate email offers full secure access to shared calendars, notes, to do lists and more via webmail, smart devices as well as PC and Mac Computers. JetBackups bring you even more security.

Spam Reduced Email **INCLUDED**

No filters used unless you add them using your cPanel. We've already taken out some of the load.

Remote Setup Help **INCLUDED**

Setting up email clients can be daunting; we can even login to your machines to do it for you.

Server Side Help **INCLUDED**

Want to add a few filters and sorting elements? We can help out with those too, it's all included.

COOLCOM has over 20 years experience with intricate email configurations and requirements. We've sharpened our systems to perform with a very low spam count to begin with, and included all the tools to carry forward.

Okay Let's do this :)

ALL INCLUSIVE: save \$100s per year

Yup! I really want to grab COOLPro Hosting right now!

\$20.00/m

My downtown brick and mortar retail store keeps me incredibly busy, so having COOLCOM backing my website has meant the world to me. Keeping the online showroom working and ensuring people can buy my products, get my support and tell their friends is worth so much more than "hosting fees" and finding a place that participates this actively is so rare.

Gary Beyer

INCLUDED: Security Tools and Products to Protect your Online Assets

COOL Corporate email offers full secure access to shared calendars, notes, to do lists and more via webmail, smart devices as well as PC and Mac Computers. JetBackups bring you even more security.

SSL at COOLCOM Digital Media is "WILDCARD" for complete website, subdomain, email and cPanel access coverage. With JetBack & Domain Theft Protection, your online security is covered.

Okay Let's do this :)
